

Yard Sign (Front)

Finished Size: **24”W x 18”H**

 Use these Duplex guidelines for all double-sided yard sign orders — whether you want the same design on both sides or different designs on each side. In both cases, you must upload a 2-page PDF with one page for the front side and one page for the back side, following the Duplex setup guidelines.

BLEED (24.25” W X 18.25”H): Your file must include a **0.125” bleed** for production. Bleed extends artwork beyond the edge of the sheet after trimming. Without bleed, there may be gaps between the printed area and the cut line due to cutting tolerance.

TRIM AREA (FINISHED SIZE 24” W X 18”H): This is where your artwork will be trimmed.

SAFE MARGIN AREA (23.75” W X 17.75”H): – Your file must include a **0.125”** safe margin. This is the area around the edge of the sheet. Without a safe margin, content near the edge may be cut off due to machine shift during trimming.

Yard Sign (Back)

Finished Size: **24”W x 18”H**

 Use these Duplex guidelines for all double-sided yard sign orders — whether you want the same design on both sides or different designs on each side. In both cases, you must upload a 2-page PDF with one page for the front side and one page for the back side, following the Duplex setup guidelines.
